

OUR
WELLNESS
COMMITMENTS

NUTRITION LABELING

We label all items in the cafe with CALORIES PER SERVING.

FOOD MARKETING

We promote healthy foods and offer monthly wellness promotions that focus on improving customer health through better nutrition.

HEALTHY CHECK-OUT AT REGISTERS

Better-for-you options are offered at the cash register.

HEALTHY RETAIL MENU

Wellness meals are available everyday for adults and kids.

Our chefs balance more than half of our cafe menu with healthy options.

POWER OF FOOD PATIENT MENU

Wellness meals are offered on patient menus.

Our patient menus are low in sodium and include whole grains, fresh fruits and vegetables wherever possible.

HEALTHY CHECK-OUT AT REGISTERS

Our Morrison Healthy Dining Standards make healthy foods accessible everyday.

We serve whole grains as our main offerings (breads, cereals, pasta, and rice).

We increase the percentage of fresh, seasonal and local produce purchases annually.

We reduce the percentage of fried foods offered annually.

All added trans fat is eliminated from our food supply.

Only misted oil or broth is used in made-to-order foods.

HEALTHY BEVERAGES

Healthy beverage choices are increased annually while also reducing sugar-sweetened beverage options.

SUSTAINABILITY

We promote healthy foods and offer monthly wellness promotions that focus on improving customer health through better nutrition.

We adhere to responsible and sustainable food procurement practices in our supply chain that promote the health and well-being of our people and planet.

We minimize food waste according to established standards and programs, including Trim Trax.

Where composting and recycling programs exist, we source sustainable packaging and support both.
